SUMMARY

As a passionate full-stack developer, I specialize in building scalable, secure, and high-performing applications. With expertise in React Native, Next.js, Django, Flask and NestJS, I am continuously expanding my backend and DevOps skills, including Linux, server deployment, and CI/CD. My goal is to bridge frontend and backend expertise to develop efficient, end-to-end solutions while integrating best security and optimization practices.

SKILLS

Programming languages: TypeScript | Python | PHP | JavaScript | Java

Frameworks: NestJs, NextJs, ExpressJs, ReactJs, React Native | Django, Flask | Symfony | SpringBoot

Databases: MongoDB | PostgreSQL | MySQL

APIs: GraphQL | RESTful

Tools: Git (GitHub) | PostMan, GraphQL Playground | Jest | AWS | Vercel, Render | Mongosh

Languages: French (Fluent), English (Good), Swahili (Fluent), Kirundi (Basic)

Other skills: ULM, Web design, Linux, Database Design

EDUCATION

Bachelor's degree in Software engineering

University Polytechnique of Gitega, Burundi

- Relevant Courses:** Data Structures and Algorithms, Database Management, Linux Systems Administration and Security, Object Design Pattern,

PROFESSIONAL ACTIVITIES

Baraka Creation

Frontend Developer

Kinshasa

Sep 2023 - Jan 2024

- As a frontend developer, I had to reproduce at 100% the given design by Baraka Creation with performance with ReactJS and TailwindCSS.

The SA

Software Engineer | Web Designer

Gitega

May 2025 - July 2025

- Build an online course streaming platform with the Cloudfront tool for CDN
- Have to design for a smooth and modern experience
- Ensure CI/CD for improved user experience..., using Flask for the backend, NextJs for the front and AWS technologies like S3, MediaConvert and Cloudfront for a better experience

Africa Meuble

Software Engineer | Web Designer

Lubumbashi

Nov 2024 - Feb 2025

- For helping automate the visibility, purchasing for a carpentry business and facilitating orders via WhatsApp
- I had to design and build a robust web application with a strong SEO to improve visibility using NextJs, ApexChart, NodeJs/ExpressJs for the backend

Wote (Development)

Software Engineer | Team Leader

Kinshasa

June 2025 – now

- As team lead of 2 people, we need to ensure that we respect the design and deliver the product while putting the user experience first

Design: [here](#)

EasyLife

FullStack Developer | Web Designer

Kinshasa

Nov 2024 - April 2025

- Enable quick and easy interaction with the enterprise,
- Reduce customer service interaction time by 90% by offering all information through a seamless interface,
- Reduce expenses related to the design of invoices and other information by automating it
- Build a unique and adaptable money tracker for the whole enterprise
- A strong SEO with for more visibility on the search engines

The SA BOT

Software Engineer
